

NARROW GAUGE RAILWAY SOCIETY

2017 GUIDE TO NARROW GAUGE & MINIATURE RAILWAYS

Compiled by Lawson Little, with additional information supplied by Matthew Gardener

This guide endeavours to list narrow gauge and miniature railways within the UK and Eire, according to the following criteria:

- a) track gauges under 4' 8½" but at least 7.25";
- b) industrial lines without public access, museums without operating lines and private lines that do not hold occasional open days are not listed;
- c) where given, postcodes generally relate to the actual railway sites but in some instances might refer to an administrative address remote from the line;
- d) the Society accepts no responsibility for the accuracy of any entry;
- e) c-i-s = coin in slot line.

Members of the Society are encouraged to report to the compiler any errors or omissions so that future guides can be updated.

Members of the Society receive a printed version of this guide, which includes a number of private sites, including those that do not hold Open Days.

We should like to offer a special thank you to Matthew Gardener, who has compiled this Guide for a number of years. This will be his last issue.
